DETAILED ACTION

Request for Continued Examination

1. The request filed on May 29, 2007 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/629857 is acceptable and a RCE has been established. An action on the RCE follows.

2. In view of the amendment filed May 29, 2007, claim 3 has been cancelled.

Claims 1, 7 are pending.

3. In view of the cancellation of claim 3, the rejection of claim 3 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Chatterjee (US 5,922,471), is withdrawn.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1713

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

6. Claims 1, 7 stand rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Chatterjee (US 5,922,471) for the reasons adequately set forth from paragraph 4 of final office action issued November 29, 2006.

Applicant's arguments filed May 29, 2007 have been fully considered but they are not persuasive. Applicants argue that Chatterjee is silent on a composition comprising a phenol- and/or phosphorus-based antioxidant having a molecular weight of 500 or more. However, applicants fail to recognize that Chatterjee (col. 2, line 54 to col. 3, line 17) clearly disclose phenol-based and phosphorous based antioxidant having a molecular weight of 500 or more. Regarding the argued improved stiffness and heat sealing property, the features are not in the claims.
